EG-1END

[] reports W/T contact on 11 September with one five-man team which was infiltrated into Albania the night of 7/8 September. The team reported that the zone of entry was quiet. The team was instructed to attempt to determine the fate of the team which was reportedly ambushed close to the Albanian-Greek border while exfiltrating at the end of June and to seek contact with the remnant of the base team which has remained inside Albania for more than a year. When the present team has established itself in its operational area well inside the country, it may be able to assist in the exfiltration of the base team. A second W/T contact was scheduled for 13 September.
